## Vlaams Diergeneeskundig Tijdschrift

The Flemish Veterinary Journal is an independent and authoritative source of information both for the practicing veterinarian and for the student. The journal reaches about 1700 subscribers, the vast majority are practicing veterinarians.

More and more new techniques and treatments are being introduced in veterinary practice that are either replacing existing therapies or are curing disorders for which there were previously no solutions. The first results achieved with these new techniques and treatments are often published in this journal.
